Lionville® Series Medication Carts

- The lightweight design of the carts make them ideal for medication transport and distribution.
- The range in sizes enables the cart system to be configured for a few patients for bedside application to high capacity to serve as the main medication storage hub.
- The flexible design allows for a number of user defined options that can be integrated into the cart including med cup dispenser storage wells and bins, additional storage, or concealed trash.
- Security is key for medication storage and the Lionville series offers a number of options starting with a basic key lock that can be upgraded to include:
 - Autolock supporting basic key function
 - Electronic keyless entry
 - Electronic keyless entry with autolock
 - Electronic keyless entry, LCD screen, autolock and audit capabilities*
 - Keyed double lock for narcotics
 - Keyless double lock for narcotics*
- Carts can be configured with a mixture of cassettes, storage drawers or narcotics drawers to suit specific needs.
- Drawer pulls are available in five colors to complement décor or differentiate the carts.

All keyless entry options include keyed access as a backup for entry.

*Keyless narcotic storage compatible with LCD screen keyless entry version only.
